

Workflow Guidance

PRICING SHEET

Learn by doing & get work done from day one

Help employees learn new skills faster with the HoloLens - no coding required. [Watch video](#)

Step-by-step holographic instructions	Personalized yet repeatable training	Power BI for measuring performance
Provide support and guidance to your employees using step-by-step holographic instructions exactly when and where they need them.	Personalize your trainings by implementing photos, videos and 3D models of your machinery, tools and parts.	A real-time Power BI dashboard visualizes your employees' performances. That way, you can track where extra instructions are needed, or identify tasks they excel at.
